India's Living Constitution: From Rights to Reality

Concept Note

India's Constitution embodies the promise of justice, dignity, and equal opportunity for every citizen. Yet, many still face delays, procedural barriers, and lack of clarity in accessing their rightful entitlements.

This tableau presents the vision of a "Living Constitution", where rights are not only guaranteed, but actively delivered through responsive and citizen-centric governance systems.

It imagines a transformative shift from static processes to a dynamic framework where technology and policy work together to ensure seamless access to services, transparent delivery, and inclusion at every level of society. The concept highlights how governance can evolve to proactively identify gaps, simplify processes, and ensure that no eligible citizen is left behind.
